Dear Harold;

Thanks for your nice long letter and the reviews on "Behind Closed Doors!" Mainly I am glad tohear that you are much better health-wise. The amount of walking you are doing seems to be a big improvement. Is the numbness in your left hand any better?

You said the CIA wants $1800. for xeroxes of the rest of the mind bending files. I s there any way to get that figure down. If someone else buys them will it be cheaper for you on the decond batch? From what you write the stuff you are getting from the FBI must really be something. Will it help your case?

Am enclosing some clippings some of which must have appeared in the local papers. The ones on the Conspiracy Debates at USC I didn't hear about until after they were over. I guess they didn't reveal much new and cost $45.00. To hear Lane I don't need that. Hope this finds you in much better health and also my very best to Lil and Jim.

Best,

Paul

Review on Lane's book is interesting- the reviewer was not completely fooled by Lane -

Hope to send another donation soon.
